Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 213-330 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Florin et al. (USP 5,792,667), Bowen et al. (USP 4,802,761) or Yee et al. (USP 5,858,799).

All of these references teach method of sample analysis where the sample is contacted with on a metal island layer, a laser provides electromagnetic radiation through the layer and a deviation in the surface Plasmon response is measured and correlated to the identity of the sample.

Response to Arguments

Applicant's arguments with respect to claims 213-330 have been considered but are moot in view of the new ground(s) of rejection.
